

Therapeutic Garden Design  
and Veterans Affairs:  
Preparing for Future Needs

## Acknowledgements

## Acknowledgements

On behalf of the Therapeutic Garden Design Professional Practice Network and the Acer Institute, we would like to acknowledge the outstanding congress of professionals and advocates of sensitive, credible, exemplary therapeutic garden programming, planning, and design who convened on October 11, 2005 for “*Therapeutic Garden Design and Veterans Affairs: Preparing for Future Needs*”. We wish to recognize **Stephen M. Lucas**, Director of the Miami VA Medical Center for his organization’s support, the generosity of the **Miami VA** for hosting this conference, and for the provision of outdoor therapeutic venues for Veterans. We wish to extend our gratitude and appreciation to **Alee Karpf, MS CTRS, HTR** for a resounding sense of dedication for the improvement of care environments for veterans and for providing on-site event coordination and hosting. Our appreciation is extended to the **Florida Chapter of the American Legion** for providing refreshments during the day’s event.

In addition, following, we wish to acknowledge the many – presenters, contributors, volunteers, patients and residents – that worked so diligently to bring the conference to a reality. These individuals were instrumental in the success of the collective whole – thank you for this collaborative experience.

## Special Acknowledgements of Landscape Forms:

We would like to thank **Landscape Forms** for their support and endorsement of the October 11, 2005 conference at the Miami VA Hospital, "*Therapeutic Garden Design and Veterans Affairs: Preparing for Future Needs*".

It is with appreciation that we acknowledge **Landscape Forms** for championing and underwriting the production of a CD of the proceedings of the day's event. This contribution and information contained on this CD affords the opportunity to advance the knowledge shared at the Miami VA event beyond a single day in attendance. This support assists us to be far reaching with important information; educating the nation about the value of therapeutic gardens in healthcare facilities serving the needs of veterans. From the conception of the idea of this conference, **Landscape Forms** has fully embraced the cause.

This landmark event serves as a catalyst for many other events to come and we are grateful for our friends at **Landscape Forms** for their dedication to the study of therapeutic gardens.
